

## PRESS - RELEASE - COPPE/UFRJ - ENGLISH

**Title:** Enabling Financial Instruments and boosting carbon markets in Latin America – Launch of the Green Hydrogen Project

**Date:** November 17th, 2022

**Time:** 14:30 – 15:30h (GMT+2) | | 09:30 - 10:30 (Horário de Brasília)

**Event:** COPPE/UFRJ in partnership with GIZ Brazil and the Decarboost Project supported by IKI in Argentina, Brazil and Peru, presents a side event of the Brazil Climate Hub at COP27 in Sharm El-Sheikh, Egypt, and via online platform, about financial instruments and carbon pricing, with the launch of the Green Hydrogen Project.

The event aims to promote a discussion on financial instruments and carbon pricing to boost offset markets in Latin America and officially launch the Green Hydrogen Project: Renewable Hydrogen Production, compression, storage and utilization in energy and mobility systems.

Discussions will be guided by the results of the DecarBOOST project supported by IKI and implemented in Argentina by FTDT, in Brazil by Centro Clima/COPPE/UFRJ and in Peru by Libelula, addressing opportunities in different sectors economy-wide to drive deep decarbonisation in the region, and present an example of public-private partnership with the research work carried out by the Sustainable Transport Lab at Coppe/UFRJ supported by GIZ in Brazil.

**Speakers:** Andrea Santos - Coppe/UFRJ; Emílio La Rovere - Coppe/UFRJ (Brazil), Micaela Carlino – Fundación Torcuato di Tella - FTDT (Argentina), Blanca Rengifo - Libelula (Peru).

\*Online: Jorge Arbache\* - Director, CAF - Corporación Andina de Fomento, Markus Francke\* - GIZ Brazil.
